STARTING THE GAME

Head to Head or teams of 2-3 players works best when playing Football 21. When playing up to 3 people, each person may elect either to be offense, defense, or kicker.

Each team will choose a sideline that they must stay on when not in the game.

A coin toss at the 50 yard line of Heads or Tails shall determine who receives the ball first. There are no kickoffs in Football 21 so the winner of the coin toss begins at the 20 yardline and do the same after a score as well.

Line of scrimmage will always be marked with by placing the FRONT of the chip to mark that spot.
